ROYAL PURPLE MAX-CYCLE MOTORCYCLE ENGINE OIL

MAX-CHAIN

The Royal purple Max-Chain Lubricant is an advanced, synthetic lubricant that dramatically reduces wear and extends equipment life.

It can be applied by either spraying or brushing and once applied, it leaves a long-lasting, dry, wax-like film that provides excellent protection against rust and corrosion for chains, open gears and exposed metal surfaces subjected to severe loading.

John Little, Buckhead, GA:

"The Royal Purple Max-Chain Lubricant went on easily and it dried without leaving a lot of residue to get tossed onto my bike, gear, and clothing. I really like the way it went on so evenly."

Steve Crum, Waco, TX:

"Royal Purple lubricates great and is not at all messy, unlike other brands that sling the product all over the tires and chrome."
