

## Max-Boost<sup>®</sup> Gasoline Octane Booster

### Product Description

Royal Purple<sup>®</sup> Max-Boost<sup>™</sup> is a premium octane booster and fuel treatment engineered to enhance gasoline performance. It increases octane levels, improves combustion efficiency, and helps prevent the formation of harmful deposits within the fuel system and combustion chamber. Max-Boost<sup>™</sup> will also help prevent fuel system corrosion.

Suitable for all 4-cycle gasoline engines, Max-Boost<sup>™</sup> is compatible with carbureted, port fuel injected, and direct injected systems, and is optimized for turbocharged and supercharged applications. When used as directed, it can raise octane by up to 3 full numbers (30 points), helping to reduce the risk of pre-detonation (engine knock) and associated damage. Its advanced detergent technology helps maintain cleanliness of critical engine components, promoting proper fuel delivery, efficient combustion, and consistent performance.

Choose Max-Boost<sup>™</sup> to maximize your engine's performance and provide reliable protection against the detrimental impacts of low octane every time you drive
